EDUCATION

University of the Philippines Los Baños — Los Baños, Laguna
Bachelor of Science in Computer Science — Batch 2022

EXPERIENCE

Marketing & Growth Agency — Remote
Software Development Lead — 2026

- Develop and maintain full-stack web applications and mobile-ready experiences, adapting existing web products for mobile and cross-platform use.
- Build user-facing features alongside the APIs, services and data systems behind them, and integrate third-party platforms into existing product workflows.
- Own features from requirements through implementation, testing and release; debug issues across environments and contribute to UI/UX and architecture decisions.

SeekLab Marketing Solutions — Hybrid
Junior Digital Designer — 2026

- Design Instagram carousels, Stories and single-post statics for clients in IT consulting, events and food and beverage, following each client's brand.
- Edit short-form reels in CapCut and produce campaign assets with the marketing team.

Limitless Lab — Internship
Software Engineering Intern — 2023

- Contributed to MVP development by building reusable frontend components, integrating backend logic, and configuring Supabase authentication and database services.
- Implemented and debugged features including in-app notifications, responsive navigation, sign-in and sign-up flows, and theme switching.
- Translated user and stakeholder interviews into personas, user flows and medium-fidelity prototypes; took part in sprint planning, code review and testing.

PROJECTS

SINAG – Youth Governance & Service Platform | *Full-Stack Developer* — 2026

- Designed and built a MERN platform for SK Bulihan covering youth services, events, reservations, assistance requests and public disclosures; rated 84.53 on the System Usability Scale (Grade A) by 21 users. React 19, Express 5, MongoDB Atlas, Tailwind CSS 4, JWT. *sinag-b7082.web.app*

Center Management App | *Front-End Developer* — 2026

- Built the complete interface of a multi-center operations app for learning centers, covering attendance with RFID check-in, billing, payroll and reports for four roles. Next.js 16, React 19, TypeScript, Tailwind CSS 4, shadcn/ui.

CourtMate – Sports Open Play Platform | *Full-Stack Developer* — 2026 – Present

- Building a mobile-first platform for 30 sports with open plays, court bookings, live queues and player records shareable as Instagram Story cards. React 19, TypeScript, FastAPI, PostgreSQL.

Oasis Hookah Bar Website | *Web Designer & Developer* — 2026

- Designed in Figma and built with Next.js a responsive one-page site for a Scottsdale lounge. *oasis-hookah-bar.pages.dev*

IsKonek – ICS Alumni Tracker | *Full-Stack Developer* — 2024

- Built alumni profiles, search, job postings, RSVP events, donations and role-based access for alumni and administrators. React, Supabase. *iskonek.vercel.app*

LEADERSHIP & ACTIVITIES

Sangguniang Kabataan ng Bulihan | *Chairperson* — 2022 – Present

- Lead youth-service programs and coordinate with government, community and partner stakeholders across education, health, environment, sports and civic engagement.

Rotaract Club of Malolos Capital | *President* — 2024 – 2026

- Lead service projects, professional development and youth empowerment initiatives, managing teams, partnerships and communication.
